Summary

Gowtham Gaddam is a highly skilled Full Stack Developer with expertise in programming languages such as API, Bootstrap, and Caching. He has a strong background in cloud computing, specifically with Amazon Elastic Compute Cloud. His work experience includes roles as a Module Lead at Sopra Steria, where he designed and developed software applications using the MERN stack. He collaborated with cross-functional teams to create high-quality software solutions and implemented best practices for software development, testing, and deployment. Gowtham also has experience as a Full Stack JavaScript Developer at Biscuit Data, where he worked on SEO marketing tools and developed applications using React and Redux. He has a proven track record of success in agile/scrum environments and is skilled in deploying applications on Google Cloud Platform. With a Bachelor's degree in Electrical Engineering, Gowtham is seeking opportunities to leverage his skills and contribute to innovative projects in the field of software development.

Work experience

2022-11 - present

Module Lead (FULL STACK DEVELOPER)

Sopra Steria
